

## ASSEMBLY & LEASHING INSTRUCTIONS

Remove wrapping and tape -Except for the tape covering the Velcro.

Fully Insert the 12" x 23" board into the pouch so the flap will close over the opening

Finally, remove the tape protecting the Velcro.

Close the flap completely and smooth out the top surface of the flap.

Pictured above are two possible ways to **leash** your pet.

Roxyspetpad.com suggests all owners leash their pets as they would normally in the car knowing that a leash provides some safety for the pet, but not as safe as a pet harness or some kind of seat belt. Owners assume all legal liability for their pet and agree to release Roxyspetpad, its owners, agents and manufacturers of any and all legal liability. Consult your own State, locality, ordinances and rules regarding pet safety laws, as these change rapidly. **Please--never leave your pet in a car while unattended.**
